

Order Form

Cloud and remote signatures in conjunction with CARAT

Description:

With the signoSign/Universal e-signature software, you can easily and flexibly sign your documents electronically or have them signed by your customers via remote signature. When provided as Software-as-a-Service (SaaS), the application is fully operated and maintained by signotec as cloud software and is fully integrated into the CARAT kitchen planner.

Licence Package

A cloud subscription entitles you to use signoSign/Universal Cloud (SaaS) for the duration of the subscription. A single technical user account is provided for connection to CARAT. Upgrades to larger volumes are possible.

Article	Price ¹ / month	
Subscription „CARAT Basic“ - approx. 50 signatures per month - Recommended for up to 3 users	20,00 € <i>plus 79,95 € activation fee</i>	☐
Subscription „Small“ - approx. 500 signatures per month - Recommended for up to 10 users	39,00 € <i>plus 79,95 € activation fee</i>	☐
Subscription „Standard“ - approx. 2.000 signatures per month - Recommended for up to 50 users	99,00 € <i>plus 79,95 € activation fee</i>	☐
Subscription „Large“ - approx. 5.000 signatures per month - Recommended for up to 100 users	189,00 € <i>plus 79,95 € activation fee</i>	☐

Do you require a higher signature volume? Please contact us at sales@signotec.de for a personalised quote!

Signature Pads (optional)

Professional devices for capturing high-quality signatures enable a secure and authentic signature process – without any media discontinuity. Thanks to modern ERT/EMR technology, resting your hand on the device is no problem, as the sensor only reacts to the pen. The signotec Delta also offers the option of displaying and signing complete documents directly on the signature pad and is additionally equipped with a network connection.

	Article	Quantiy	Price ¹
	<u>signotec Zeta</u> 4,5" Mono-LCD, USB-Anschluss, ERT-Sensor mit 2.048 Druckstufen		218,00 €
	<u>signotec Gamma</u> 5" Farb-LCD, USB-Anschluss, ERT-Sensor mit 2.048 Druckstufen		289,00 €
	<u>signotec Delta</u> 10,1" Farb-LCD, ERT-Sensor mit 2.048 Druckstufen, USB- und Netzwerkanschluss		503,00 €

Notes:

- To use the signature pads with signoSign/Universal, the "signoPAD-API/Web" must be installed on the computer.: <https://en.signotec.com/signopad-api-web-en>
- When using Citrix, additional drivers may be required, which are subject to a charge. In addition, a "virtual localhost loopback" must be configured. This is required independently of signotec products and must be carried out by the system administrator.
- Use under Remote Desktop (RDP) is not possible!

¹ All prices are subject to statutory value added tax. The subscription is billed annually in advance.

Please complete in full!

Billing address (client/purchaser)

CARAT Customer Number:	
Company:	
First name and surname:	
Street, house number:	
Postcode, town:	
Telephone number:	
E-mail address:	

Desired contract start date <i>(always on the 1st of the month)</i>	
Email address of the account <i>This is a shared user licence. The email address should therefore be a group mailbox, e.g. info@, office@, secretariat@ (or similar). This mailbox will receive all important notifications.</i>	

Trial Account

The software can be tested free of charge in the cloud for 30 days. Access can be created at any time via the product page: <https://signosign-universal.signotec.com/>.

Miscellaneous

The form is valid even without a signature. Submitting the form constitutes a binding order and you agree to the processing of your personal data for the purposes of order processing and delivery of goods. The order is only considered accepted upon receipt of the order confirmation by signotec.

After order confirmation, the client will receive an invoice. Invoicing is done in advance, i.e. before the above-described deliveries and/or services are provided. Delivery will only take place after full payment has been received. The invoice number must be stated as the purpose of payment.

Technical support for the signoSign/Universal software and signotec signature pads is provided by [signotec GmbH](#). Support for connecting the signature software from the CARAT kitchen planner is provided by CARAT GmbH.

**Please send the form directly
